## UVIR Module Grow Light

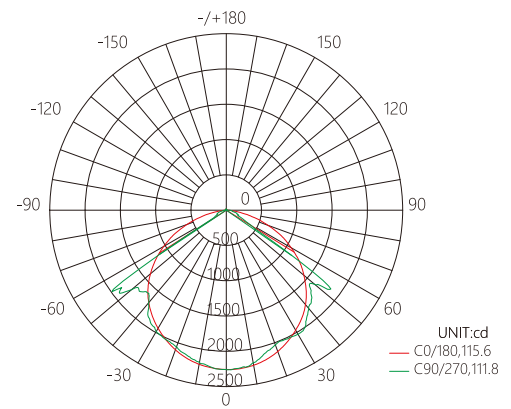

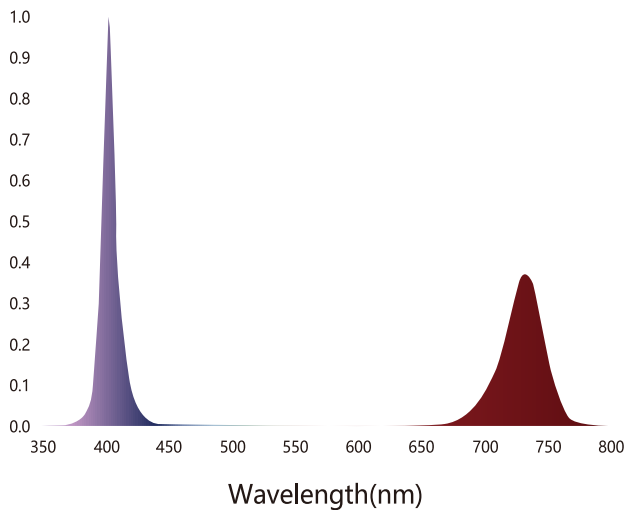

<b>5</b> YEAR PRODUCT WARRANTY	<b>IP 66</b> INGRESS PROTECTION	<b>IK 08</b> IMPACT PROTECTION
---	---	--

### Description

UVIR module product can be used in isolation, but we suggest that you can use it with our grow lights PGLE or PGLE-N together. UVIR can effectively kill the bacteria that is harmful to plants, the same time prevent the planting beads excessive growth, and improve the fruit rate and yield of planting beads .

Spectral power distribution curve (SPD)

Spectrum

AVERAGE BEAM ANGLE(50%):113.7 DEG

-Open the package, take out the product,fix the led strip on the frames of PGLE OR PGLE-N through the extension-type neck ends of the product.

-onnect the power-line(optional configuration) to the lamp and tighten it;

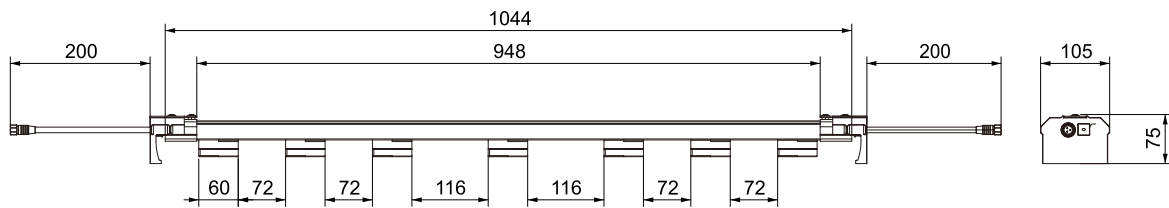

-Insert the plug into the socket.

## Technical Specifications

<b>PPF</b>	24.38 umol/s	<b>Beam Angle</b>	110°x115° Rectangular Beam
<b>PPE</b>	0.489 umol/j	<b>Operating Temperature</b>	-20~45°C, 20~95%RH No condensation
<b>Input Voltage\Frequency</b>	100-277V/AC	<b>Quantity In Series (Max)</b>	10PCS
<b>Spectrum</b>	FST 330~880nm	<b>Life Span</b>	L90≥50000hours
<b>Heat Dissipation Method</b>	Integrated Heat Dissipation Structure	<b>Ip Grade</b>	IP65
<b>Structure Material</b>	Aluminium Alloy	<b>Warranty</b>	3 years
